Sir:

Applicant notes that the present application was filed July 14, 2003. Applicant has requested, in the Power of Attorney, filed 7/14/03, that all future correspondence be directed to the undersigned.

Fifteen months have passed since this application was filed. I have reviewed the file wrapper and find that no Office Action has issued on the case. Kindly advise the undersigned whether this correctly reflects the status of the application and when the case is docketed for examination. Fifteen months seems like an unusually long time for receiving the first Office Action.

Respectfully submitted,

Michael G. Petit
